

# ZSMELL ZAPPER®

**DON'T COVER UP THE ODOUR,  
ELIMINATE THE SOURCE!**

With Smell Zapper's 3 distinct product lines we are able to offer unparalleled odour and spot elimination for underlayment, vehicles, entire rooms from the ceiling to subfloor, cement and more.

**1. Bio-Enzymatic Odour Eliminator: Quickly and permanently eliminates urine and pet odours without priming.**

**2. Smoke Odour Eliminator: Quickly and permanently eliminates smoke odours from ceilings, walls, carpets and draperies.**

**3. Erase & Erase Concentrate: Carpet & upholstery spot and stain remover.**

## Bio-Enzymatic Odor Eliminator

Eliminates urine odour, feces odour, vomit odour, sewage odour, garbage odour and many other organically based odours.

**Eliminate the source of the odour, not just mask the source!**

Can be used on many surfaces including painted walls, concrete floors, carpet, etc. However, we do not recommend use on silk or leather furniture.

**Unlimited uses:** Cars, RVs, homes, senior homes, hotels, etc.  
**Spray on subfloor/underlayment including under baseboards and tack strip to truly eliminate all odour sources.**

**Spray it & Lay It!** No wait time. You can install the floor covering immediately after spraying Smell Zapper on the underlayment/subfloor (with glue down applications please wait for glue to dry).

**Bio-Enzymatic Odour Eliminator**

**Inexpensive**

**Customer Pleasing Scent**

**Fast – Extra Profit on Every Job - No Priming**

**Install New Flooring Right After Treatment**

**Spray Under Baseboards**

**Unlimited Uses!**

## Smoke Odour Eliminator

Encapsulates then eliminates the odours caused by cigarette smoke and smoke odours from household fires, marijuana and residual cooking smells.

**Works on ANY smoke odours quickly and permanently.  
A little goes a long way – 1 quart = 50 cars**

**Use with vehicles, homes, apartments, hotels and on ceiling, walls, carpets and draperies.**

## Smoke Odour Eliminator

### Vehicle Application:

Simply spray a light mist 4-5 times in total in the front and back of the interior (seats, carpets, headliners) and let sit for 10-15 minutes.

The initial cover scent will fade as the enzymes eliminate the source. Ultimately, no odour or scent will remain.

For severe vehicle odours proceed as usual with 4-5 sprays but saturate the in-cabin air filter as well. While the vehicle is running and the AC is set in the re-circulate air mode, spray 4-5 times more on the floor mats so the product can flow through the ventilation system. Keep windows rolled up for 15 minutes.

## ERASE & ERASE Concentrate

This unbelievable spot, stain, & odour remover permanently removes oils, ink, grease, blood, urine, food and many other stains. Erase is fantastic for spot cleaning any water-safe fabric and can be used to remove difficult spots from carpets, rugs, and upholstery.

### Free of Chlorinated Solvents! No Residue!

Erase deodorizes as it penetrates and cleans and won't leave any residue. When used on carpeting, Erase restores nap and texture while freshening and removing the stains.

**ERASE** is the pint sized ready to use spray bottle.

**ERASE Concentrate** is designed for professional use and is mixed 5 to 1 with water or at a higher concentration for tougher stains.

# **Z**SMELL **ZAPPER**®

## **How?**

**Bio-engineered to digest organic waste and smoke odour.**

**Instant odour control by neutralization of the malodor by eliminating it's source.**

**Contains a cultured blend of live bacteria, enzymes and special bioactive solubilizing agents.**

**Safe around pets and children.**

**Leaves no residue behind.**
